Summary

Informatics graduate from Telkom University with experience in data analysis, machine learning, and deep learning through an internship and academic projects. Experienced in using Python and SQL for data processing, analysis, and machine learning projects. Also familiar with Power BI and Looker Studio for creating data visualizations and dashboards. Interested in building a career in Data Analytics, Data Science, and Machine Learning.

Skills

Technical Skills

- Programming Languages
  - Python, SQL, R
- Data Analysis
  - Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Feature Engineering
- Machine Learning
  - Scikit-learn, XGBoost, Logistic Regression, Random Forest, Support Vector Machine
- Deep Learning
  - PyTorch, CNN, BiLSTM, Multimodal Learning
- Data Visualization
  - Power BI, Looker Studio, Matplotlib, Seaborn
- Database
  - MySQL, PostgreSQL
- Tools & Technologies
  - Git, GitHub, Google Colab, VS Code, Next.js

Soft Skills

- Analytical Thinking
- Problem Solving
- Communication
- Leadership
- Team Collaboration

Experience

Data Science Intern – Bigbox Telkom Indonesia

Aug 2024 – Nov 2024

- Developed a text-based emotion classification model using Logistic Regression and TF-IDF to classify tweets into 8 emotion categories.

- Labeled and prepared 10,000 scraped Twitter/X posts as training data for the machine learning model.
- Performed text preprocessing including URL removal, text cleaning, tokenization, lowercasing, and stopword removal using Python, Pandas, and NLTK.
- Tuned Logistic Regression hyperparameters using GridSearchCV with 5-fold cross-validation, achieving 85.62% accuracy on the test set.

Selected Projects

Asthma Attack Prediction Using Deep Learning on Multimodal Time-Series Data *(Final Thesis)*

- Developed a CNN-BiLSTM-MLP multimodal model to predict asthma exacerbation risk using physiological and environmental time-series data.
- Performed data preprocessing, feature engineering, and multimodal data fusion using PyTorch, combining physiological signals with environmental variables.
- Evaluated the model against Random Forest and XGBoost baselines, achieving 86.4% accuracy, 94.9% recall, 84.5% F1-score, and 96.7% ROC-AUC.

Olist E-Commerce Analytics

- Built an interactive Power BI dashboard to analyze R$15.85M in revenue, 98.7K orders, and 96.1K customers across product, customer, seller, and geographic data.
- Analyzed sales trends, product categories, customer distribution, order status, and seller performance to understand key business patterns.
- Used SQL and Python for data preparation, analysis, and data validation before creating the dashboard.
- Created interactive filters and visualizations to explore revenue trends, product performance, customer behavior, and seller performance.

Bank Deposit Subscription Prediction

- Developed classification models to predict customer deposit subscriptions using Logistic Regression, Support Vector Machine (SVM), and Random Forest.
- Compared model performance using classification metrics to identify the most effective algorithm.

SQL Database Design for Car Wash Management System

- Designed an Entity Relationship Diagram (ERD) and implemented a relational database using MySQL.
- Developed SQL queries to support business data management and reporting.

Education

SMAN 1 Kertosono
2019 - 2022
MIPA

Telkom University
2022 - 2026
Bachelor of Informatics, Faculty of Informatics
GPA 3.62/4.00

Certification

- Data Scientist Bootcamp — DQLab (2024)
- Data Analyst Bootcamp — DQLab (2024)
- Data Science Job Training — BigBox Telkom Indonesia (2024)
- Data Analytics Mini Course — RevoU (2023)
- Critical Thinking — DBS Foundation Coding Camp (2024)

Language

- Indonesian — Native
- English — Intermediate (CEFR B1, EPrT 470)

Organizational experience

PK IMM Telkom University — 2024-Present

Chairman

- Led organizational programs and coordinated cross-functional teams to achieve organizational objectives.
- Managed planning, communication, and decision-making across multiple activities.

PC IMM Kabupaten Bandung — 2025-Present

Head of Research and Scientific Development

- Coordinated research and scientific development initiatives within the organization.
- Organized academic discussions and supported research-based programs.
